**SPECIAL AT THE LIBERTY**

My greatest desire today is to have every man, woman and child in Klamath Falls see the wonderful picture of "Black Beauty." I am bringing this picture here at tremendous expense and must grade my prices accordingly. But I am going to run special shows at even less than regular prices so that everyone may see this great production. The following prices will prevail:

Regular prices—Children 10 cents, Adults 25 cents.
Evenings—Children 25 cents, Adults 30 cents.
To enable every child to see "Black Beauty" a special matinee on Wednesday will be run at four o'clock and every child under sixteen years of age will be admitted for five cents. H. W. POOLE

SPECIAL AT THE LIBERTY**Weather Probabilities**

The low barometric pressure registered the last several days by the Cyclo-Stormograph at Underwood's Pharmacy seems to be at an end for a steady rise has been recorded since two o'clock yesterday. While still too low to be definitely in the clear weather zone, the prospects are favorable for better weather, and less wind tomorrow.

Forecast for next 24 hours:
Generally fair; warmer.

"Black Beauty" is coming. 31

STAGE IS BURNED

The Union Stage company Saturday afternoon lost one of the stages operating on the Alturas line, driven by Al Smith. A short circuit caused the gas line to catch fire, resulting in the total loss of the stage. Smith was returning alone from Alturas. The car was covered with insurance.

Much Pomp When Interest Rate Changes

LONDON, May 28.—Announcement of a change in the rate of discount of the Bank of England, such as the recent reduction from seven to six and one-half per cent, is an impressive affair.

Not one of the many hundreds of the staff of the Bank of England itself knows of the change until the actual announcement is posted, except those with the governor inside "the parlor," where the directors of the bank and leading men of other banks and institutions are gathered to deliberate on the momentous decision which affects all parts of the world.

When these deliberations are concluded a gorgeously attired messenger commonly known in the city as the "Bank canary," because of his scarlet coat and yellow waistcoat, stalks out of the parlor with deliberate slowness in accordance with ancient custom, carrying a big sheet of paper in a glass frame on which are the magic words, "6 1/4 per cent."

Hundreds of banker's clerks, messengers and newspaper men who have been thronging the passages push forward to read the notice, which the messenger deliberately keeps face away from the crowd until he has affixed it to the wall.

The first mention of fountain pens is to be found in a book published in 1600.

The Selfish Greed of Some Klamath Capitalists, Farmers and Business Men Is Shameful!

Everybody expects and hopes to see oil struck this summer. Everybody is depending on making profits and seeing prosperity from either the Siemens Well, The Crater Well or the Northern California Well. AND YET THERE ARE HUNDREDS WHO HAVE NOT SPENT A DIME OR TURNED A HAND OVER TO HELP PUT THESE WELLS DOWN.

And that is not all. Some of these selfish, greedy ones who hope to make profits out of the labor and risk of their neighbors are even mean enough to knock the ones who are putting up the money and doing the work necessary to make these three wells a success. To these we say:

If you are too stingy and too yellow to risk any of your own money in Oil Development, the least you can do is keep your mouth shut and not knock the ones who are game enough to put their money in.

When Oil Is Struck

Are you going to proudly say: "SOME OF MY MONEY HELPED DRILL THAT WELL."

Or are you going to sneak around and try to make profits on your own ground and your own leases and out of the general prosperity? Profits that were made possible by the hard money your neighbors spent to drill a well.

DON'T BE SELFISH!

DON'T BE GREEDY!

DON'T BE A KNOCKER!

BE A REGULAR FELLOW AND
